A Comprehensive Convention Center

Plaza Verde

Grand Opening

1) 'Plaza verde' means 'Green square'. The garden on a roof terrace represents its name. 2) Both the Convention tower and the hotel front are directly connected and easily accessible. 3) Hall B's characteristic wall not only enhances acoustic efficiency but also creates a high class atmosphere.

Plaza Verde is a newly opened convention center located in Numazu city. It can be conveniently accessed via a 70 minute Shinkansen (bullet train) from Tokyo, and is a 3 minute walk from JR Numazu Station. It offers a large convention hall, exhibit and event halls, and accommodation facilities. Very few other facilities in Japan are able to provide all of these.

Compact and All-In-One

The biggest advantage of Plaza Verde is its convenience. Convention halls, exhibit event halls, and the hotel are all very close together; a connecting corridor from the hotel reception floor offers easy access to the halls, and you can easily check in at the hotel after conferences.

The 4 story conference tower also has escalators in the center to make it easier to access to each floor so you will never need to wait in long line for an elevator. Connecting corridors on the 1st and 2nd floor take you to the exhibit event halls and the multi-story car park so even when it rains you will not have to worry about getting wet.

Two Halls with Different Characteristics

Convention Hall A, which holds roughly 1000 (theater style), is on the largest scale in the prefecture. Equipped with motorized batons and a sound-lighting operating room, the hall can be used for various kinds of events. The hall can also be divided into two to hold multiple events at the same time.

Convention Hall B on the 3rd floor can seat roughly 400 people in theater style. Its characteristic walls are made of one solid timber to create a high-class atmosphere. This sophisticated space can be used not only for events and lectures but also for parties and receptions.

The convention halls are equipped with a large screen, 300 inch screen in Hall A and 250 inch screen in Hall B, which makes it possible to broadcast an event held in a different venue simultaneously.

4) Foyer of Hall A: This generous, flexible space eases the flow of people. 5) White-themed interior of the hotel guarantees relaxing off time. All hotel rooms are designed spaciously. (The photo is of a suite room.) 6) Café. You can both eat in and take out. 7) Comfortable and Eco-friendly space made from local materials.

Various Venues for Section Meetings or Luncheon Seminars

Plaza Verde provides a lot of options to choose for your meeting venue. There are 12 meeting rooms of various sizes, and all meeting rooms and conventions halls allow food and drink, making them ideal for luncheon meetings.

301 and 302 meeting room on the 3rd floor hold roughly 100 people for medium sized conferences, and both meeting rooms connect directly to Convention Hall B, making them convenient to use for sub-venues.

There are 9 meeting rooms on the 4th floor, including 5 rooms that can be divided into two. Venue layouts are flexible to suit your needs, and up to 14 multiple small section meetings are possible to be held on the same floor.

Relaxing Stay at Adjoining Hotel

Daiwa Loynet Hotel stands next to the conference tower and offers 150 hotel rooms. These include single rooms

of 20 sq. meters and twin rooms of 30 sq. meters. Its generous rooms allow you to spend your off time relaxing. The hotel also provides 3 suite rooms with a living room which make for a perfect place for your important guests to stay.

Refreshing Time between Meetings

On the 2nd floor of the convention tower, Café Verde provides coffee, tea, and light meals. Both Eat-in and Take-out options are possible, and they also offer a delivery service to provide pots of coffee to conference venues.

Plaza Verde is nicely decorated with local timber and vine plants, and its open air garden is filled with seasonal flowers. The comfortable, eco-friendly space will help you to relax and unwind, and maybe even come up with new ideas.

WHY SHIZUOKA?!

Point 01

Beautiful Natural Environment at World Heritage Mt. Fuji

Shizuoka Prefecture is a World Heritage Site located on the foot of Mt. Fuji and provides stunning natural views along with refreshing, clean air, and comfortable venues. The setting makes this an excellent location for conventions and/or post conventions.

Point 02

Convenient Access, Located in the Center of Japan

Located in the middle of Japan's east and west, Shizuoka Prefecture can be easily accessed from three major cities, but is still situated amongst Japan's beautiful countryside. It can be accessed from each place via Tokaido Shinkansen (bullet train), Tomei Expressway, Shin-Tomei Expressway, and Mt. Fuji Shizuoka Airport. Izu Peninsula is also a highly recommended place to visit and can be quickly accessed via the new HIGASHI-SURUGAWAN RING ROAD.

Point 03

Maintains a Mild Climate All Year Round Ideal for Conventions

Shizuoka Prefecture has a mild climate all year round, especially in winter having more sunny days compared to most of Japan. It's less affected by typhoons, and its predictably equable climate makes it an ideal choice for conventions with fixed schedules. Shizuoka also has a beautiful, natural environment with Suruga Bay, Mt. Fuji, and other rivers and lakes, which accompanied with clean, fresh air makes for a nice, relaxing place to hold conventions.

Why Hamamatsu Area?

Hamamatsu Area is widely known as one of the nation's top 'Manufacturing Cities'. The area's advanced skills include producing fibers, instruments, and hardware, as well as the development of optical technology and electronics. It is these industries that laid the foundation that developed the area. Along with this there are also a lot of natural tourist spots as well, and the area maintains a nice balance between its industry and natural surroundings.

Point 01

Successful International Convention and Tourist City

A great number of large scale MICE (ex. International Piano Competition, etc.) have been held in the fields of music, industry, medical science, art, culture, education, tourism and sport. Act City Hamamatsu is directly accessible from JR Hamamatsu station, and is the most complete venue provider in the area. This area has a total capacity of accommodation for as many as 15000 people.

International Piano Competition

YAMAHA Corporation Communication Plaza

Point 02

Look Closely at Advanced Technology and Manufacturing through Industrial Tourism

The area has been developed as a 'Manufacturing City' where the world's leading major corporations such as Suzuki, Yamaha, Honda, Kawai and Hamamatsu Photonics were born. In late years work on new energy measures including the spread of renewable energy positively. To introduce their technologies, industrial tourism is now actively offered. Visitors can take a tour through a factory or interactively learn about their works.

Point 03

Flexible Excursions in Nature

The Hamamatsu area has both natural and historical tourist spots, such as the calcareous cave 'Ryugashido', 'Nakatajima Sand Dune' (famous for the loggerhead turtle's spawning region), and the officially-designated scenic beauty 'Ryotanji Garden'. These stunning locations make exceptional places for hosts to take their guests during business trips.

Fully Equipped, Comfortable Environment for Conventions, including a System for Simultaneous Interpretation (Available in 6 Languages)

Act City Hamamatsu (ACH) offers a full support service for efficient convention planning with facilities that include conference rooms, exhibition halls, and a hotel. ACH also has shops, restaurants, and offices, and connects directly to the station of Shinkansen.

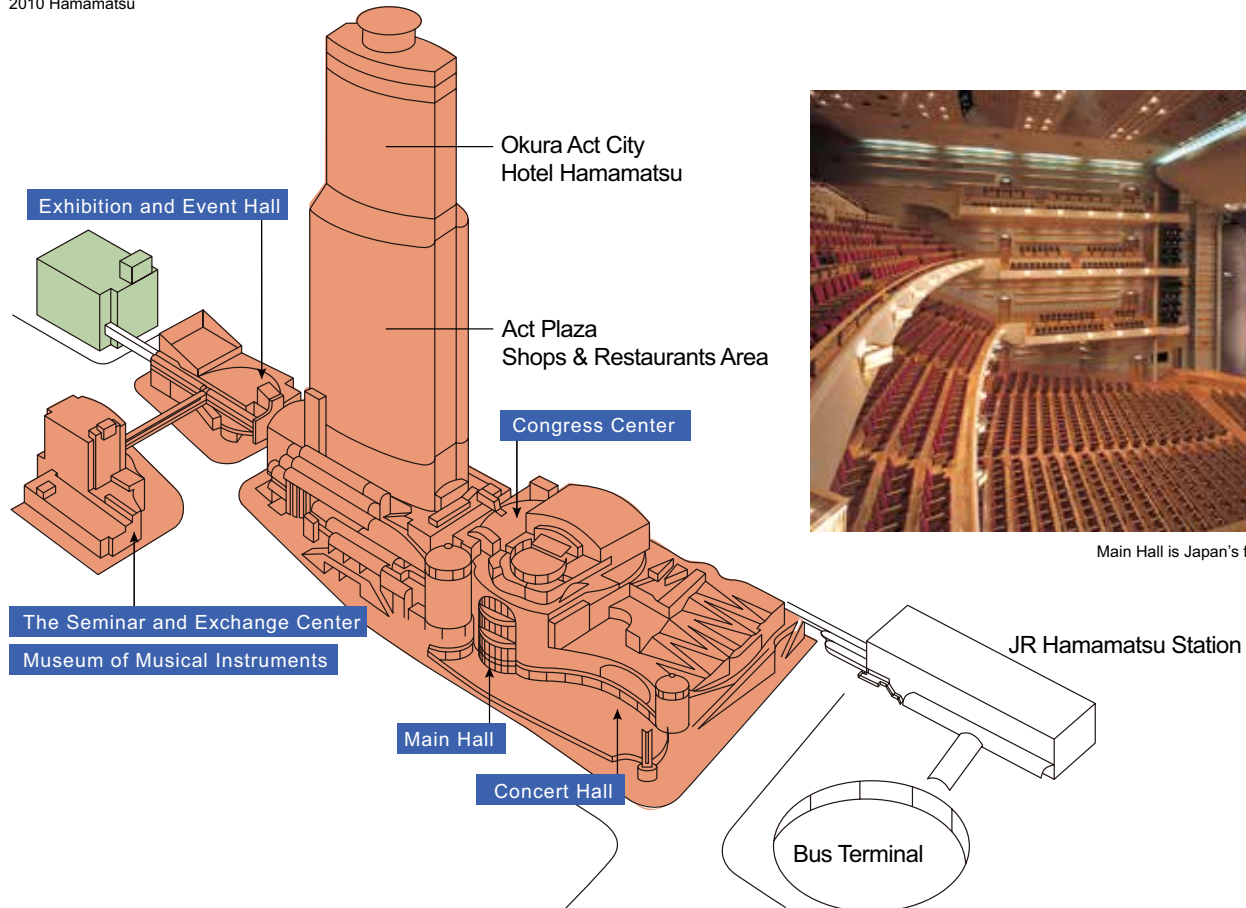

The Main Hall, Japan's first 4-staged hall, can seat 2336 people. It can host both theatrical plays such as opera, musical and kabuki, and can also be used as a comfortable conference venue. The generously sized seats ensure ongoing comfort even through lengthy events.

The Concert Hall, ideal for classical music performances with its pipe organ and special sound system, is also designed to provide an outstanding environment for conventions with a relaxing atmosphere.

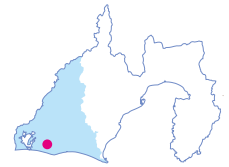

With other venues such as the Exhibition and Event Hall (which has a capacity of up to 5300 seats), and conference rooms of varying size and seminar halls, ACH is made to be a convenient convention venue suitable for almost any type of request.

PREVIOUS INTERNATIONAL CONVENTIONS INCLUDE:

Why Shizuoka Central Area?

Shizuoka area lies in the central part of the Shizuoka prefecture. The town has been highly favored by famous Japanese artists, and much of its historical architecture still remains providing visitors with lots to see. That said there are a lot of modern industrial facilities too. With a major venue which has held a convention on disarmament sponsored by the United Nations, the area plays a role as a prefectural capital.

Point 01

“The World Capital of Models” Information Dispatch Base of the Hobby

Shizuoka area has been developing the wood industry since the Edo period when many craftsmen from all over Japan were gathered to repair Sumpu castle and build new temples. Now the area has become famous for producing models accounting for a dominant share of the hobby market.

Shizuoka Hobby Square

Point 02

Largest Growing Area of World Famous Green Tea

Being Japan's largest growing area, Shizuoka green tea is referred to as one of the two best districts for Japanese tea. Shizuoka tea, which is finished by a master's hand work, is presented to the imperial family every year. The diversity of the tastes, derived from differences between production areas and methods, attracts great attention from abroad, and international events like the World O-CHA(Tea) Festival have been held here.

Tea plantation garden in Makinohara

Point 03

Nostalgic City where History and the Modern World Coexist

While historical spots, such as 'Kunozan Toshogu' that enshrines Shogun Tokugawa Ieyasu and 'Shizuoka Sengen Shrine' that is one of Japan's important national cultural properties still remain, there are also major industrial facilities in Shizuoka central area. The area has been developed as a city where history and modern culture coexist.

Hotel with Hot Springs Overlooking Suruga Bay and Mt. Fuji. Away from Everyday Life, Great for Off-Site Meetings.

Perched on a cliff 80 meters above sea level, the hotel features a magnificent view with Suruga Bay, Izu Peninsula, and Mt. Fuji. Views can be seen from the lobby, all the hotel rooms, convention halls, and the open air spas. In October 2001 it had the privilege of hosting the Emperor and Empress, as well as the welcoming reception by the House of Representatives chairman.

Conveniently located in the middle of Japan, the hotel is used for conferences and events which gather guests from all over the country. It's located just 10 minutes from Yaizu Exit of Tomei Expressway, 15 minutes from Fujieda-Okabe Exit of Shin-Tomei Expressway, and 8 minutes by shuttle bus from JR Yaizu Station.

It has also been awarded as one of Japan's 'Top 100 Best Hotels' for 5 years in a row, and its Japanese kaiseki cuisine with fresh sashimi of tuna and bonito has earned a considerable reputation. Being away from the norm, it will be an ideal venue for off-site meetings with a view of Suruga Bay and the world heritage Mt. Fuji.

Why Mt.Fuji & Izu Area?

The area's biggest draw is, needless to say, Mt. Fuji, a world heritage site and the highest mountain in Japan. Suruga Bay, which is the deepest bay of Japan, and the beautifully scenic 'Fuji-Hakone-Izu National Park' are also in this area. By taking advantage of these tourism resources your MICE event will be a great success.

Point01

Pharma Valley Project Formulating a Cluster of Medical and Health Industries

'Pharma Valley Project' is the prefecture's scheme to develop a medical district where a united group of private firms, universities, and medical organizations centered around the Shizuoka Cancer Center is doing research and development on cutting-edge medical technology. The area's volume of medical research has made it the top area of the nation. It is the ideal place to release new technologies for the medical and health industries.

Surgery supporting robot 'Da Vinci' at Shizuoka Cancer Center

Shuzenji hot spring district

Point02

Excursions Using Rich Tourism Resources

The nature spots of the area include the world heritage sight Mt. Fuji and the Izu Peninsula Geo-Park. As well as their beautiful natural scenery, these areas are very important for academia too. Shuzenji hot spring and Japan's biggest Outlet Mall are also very popular in this area, providing extra options for your excursions.

Point03

Effective MICE with a Hot Spring at the Foot of Mt. Fuji

Izu Peninsula has become more convenient to access with the opening of the new beltway (HIGASHI-SURUGAWAN RING ROAD). This area offers a lot of venues where you can enjoy the unique mood of Japanese style hotels with hot springs. Being away from the norm, inspiration may come more easily, and post convention weariness can be relieved in spas. You can expect productive conventions, enjoying both Mt. Fuji, the symbol of Japan's beauty, and hot springs, the symbol of Japan's culture.

Grand-Opened in July 2014. The Largest Convention Complex with Accommodation, Convention Halls, and Exhibition Halls.

Conveniently located, Plaza Verde is a short 3 minute walk from JR Numazu station. The exhibition hall can cater to exhibitions and events of all kinds including sales and sporting events. It has an area of 3,875 sq. meters and a ceiling height of 12.6 meters, has no support pillars and the floor has been finished in concrete. Direct access is possible for large trucks, ensuring smooth loading and unloading.

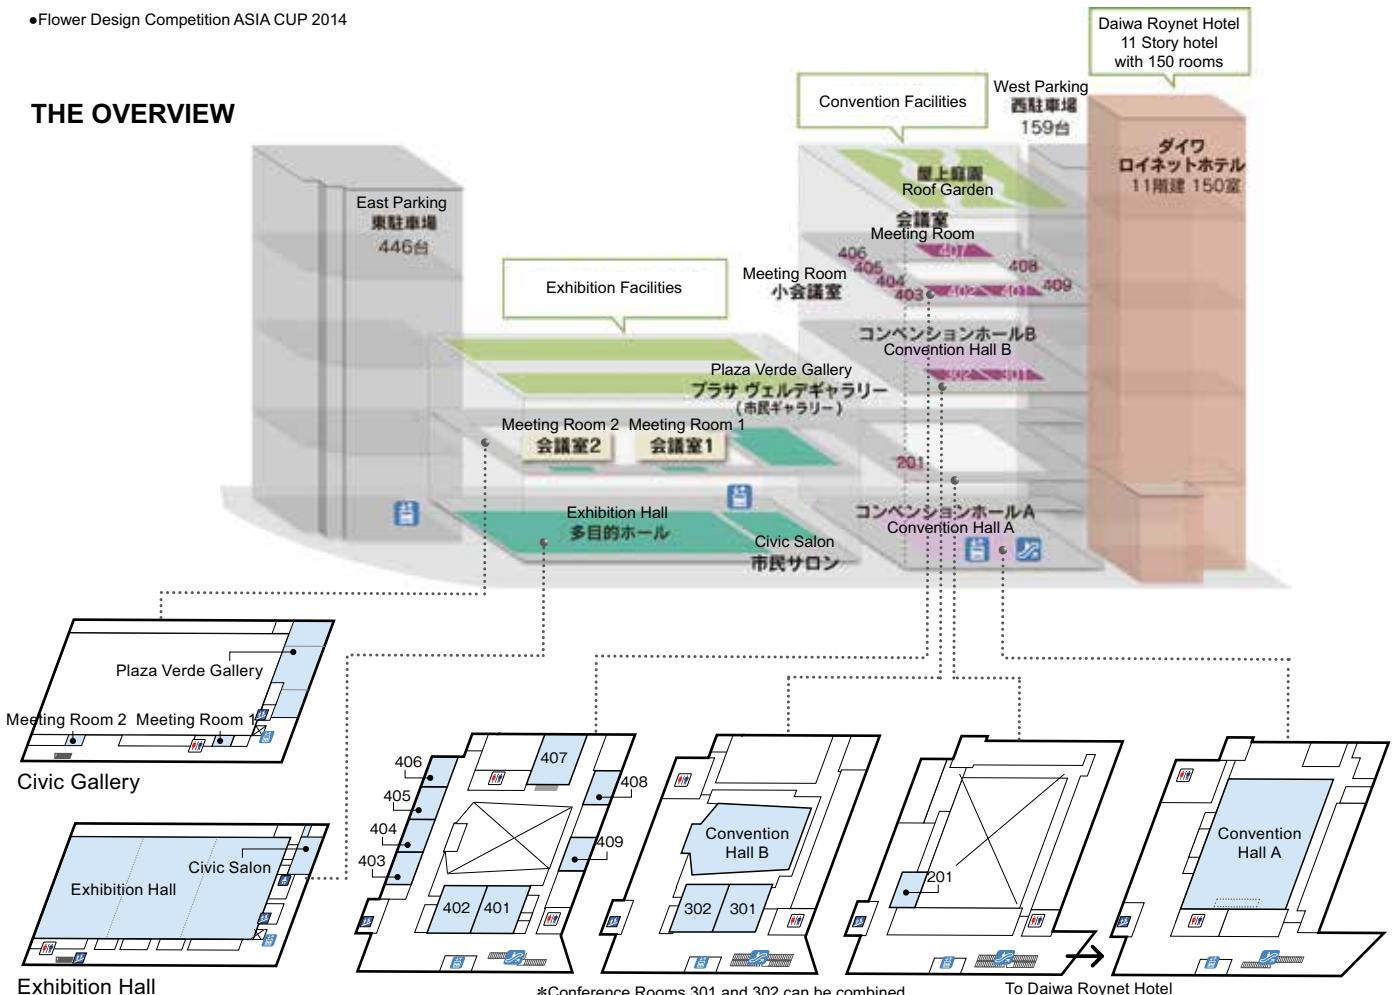

Convention Hall A, the largest-scale conference room in Shizuoka Prefecture, has a capacity of 1000 seats and is equipped with a 300-inch screen. The hall can also be divided into two. Convention Hall B, which can hold roughly 400 seats, has simultaneous translation booths, making it available for international conferences as well. This sophisticated space can be used not only for events and lectures but also for parties and receptions. Plaza Verde also provides 14 smaller meeting rooms suitable for seminars and/or small group meetings. The convention center is adjoined by a hotel with 150 rooms. A connecting corridor from the hotel reception floor offers easy access of the halls.

A Hotel Featuring a Hot Spring, Foods, and Arts. Located in Historic Kona Onsen

This 1300-year-old historic Kona hot spring provides smooth and mild water. It is said to have been loved by Minamoto no Yoritomo, a Japanese 'Shogun' of Kamakura period. Its high-quality water helps to keep you warm and is also safe for drinking.

The hotel offers various convention halls for meetings and parties. Having hosted many large conventions attended by ministers and governors, and over 100 guests, the hotel has no trouble supporting international conventions. The hotel also has a small museum which exhibits pictures of the Barbizon school. Their pictures of scenery and peasant farmers will entertain you after tense meetings.

Atmospheric Hot Spring Hotel with Japanese Style Hospitality. Proud to Host Guests from Overseas

This traditional Japanese-style hotel is fully equipped with an elegant lobby, banquet halls, a beauty salon, and more. Its beautiful architecture and high quality hospitality make this an exceptional place to stay.

The hotel serves Japanese Kaiseki cuisine created with ingredients grown from the nearby mountains, and the sea around Izu Peninsula. So that guests can enjoy these dishes at their very best, warm dishes are served while they are warm and cold dishes while cold - exactly how they are supposed to be experienced.

Having hosted many business events before, the hotel is also an excellent MICE venue. This hotel has the second place in 2013 for the 'Hospitality' section of the Japanese accommodation facilities ranking. The hotel is proud to welcome guests from overseas with warm Japanese hospitality.

[NUMAZU GOYOUTEI IMPERIAL VILLA / THE EAST HOUSE]

Conference and Meal at 'Imperial Villa', Used in the Three Periods of Meiji, Taisho, Showa.

2802-1 Tougou, Shimokanuki, Numazu-shi, Shizuoka 410-0822 <http://www.numazu-goyotei.com/>

Goyotei is a recreational resort facility, or Imperial villa, once used by the Imperial Family. Numazu Goyotei, built in 1893, and with subsequent extensions and renovations, was loved and frequented by the successive Imperial Family until 1969. In 1903, the East Wing was a place of study for the Imperial grandchild (the future Emperor Showa) and is now used for meetings and meals. Savor succulent seafood, fresh from the beautiful Suruga Bay, located immediately in front of the villa. Enjoy local cuisine with farm-fresh local vegetables while basking in the rich history and imperial culture at Numazu Goyotei.

[Example Schedule]

- 9:30 Look around the West House of Numazu Goyotei with a Guide.
- 10:30 Conference at the East House
- 11:30 Lunch
- 13:00 Leave Numazu Goyotei.
- Available All Year (except for occupied days and the end/beginning of the year.)
- Capacity: 10-20 people.

[MOA MUSEUM OF ART / NOH THEATER]

Convention on the Noh Stage

26-2 Momoyama-cho, Atami-shi, Shizuoka 413-0006 <http://www.moaart.or.jp/>

You can hold a convention in a unique Noh Theater, with an elegantly understated hinoki (Japanese cypress) stage, pine tree backdrop, and traditional housetop over the stage. Small and large meetings and symposia are possible because of movable pillars. You can also see the restored residence of Ogata Korin (a Japanese famous painter in the late 17th to the early 18th century), as well as beautiful gardens surrounded by seasonal flowers and trees. Now this is "Cool Japan" !

[Example Schedule]

- 13:00 Conference
- 15:00 Section Meeting
- 17:00 Move to accommodation in the city.
- Capacity: 501

Information on Climbing Mt. Fuji

Preparation

The weather on Mt. Fuji is very unpredictable. The temperature at the summit is only 5°C on average during the daytime. Please prepare yourself fully with adequate equipment.

What to Wear

Long sleeve shirt, jacket, long trousers, hat, well-worn comfortable trekking boots, rainwear, cold protection, changes of clothes.

What to Carry

Water (2L per day), a torch or head lamp, globes, towels, waste bags, cash and small change, easy to eat snacks.

Regulations and Rules

- Thoroughly prepare yourself with adequate equipment before challenging Mt. Fuji. It is very dangerous to climb in light clothes and with inadequate equipment.
- Walk slowly and keep a steady pace.
- Descend the mountain immediately if you get mountain sickness, feelings of fatigue, a headache, or dizziness.
- Make sure to carry hundred-yen coins to contribute for the bio-toilet (200 yen).
- Wear comfortable trekking boots that are well 'broken in'.
- Carry cold protection, rainwear, and a change of clothes. The average temperature on the summit is 5°C daytime and below 0°C at dawn.
- Prepare and take the minimum amount of cash necessary. Credit/Cash card are not accepted at mountain huts.
- Contribute 1000 yen to help to keep Mt. Fuji clean.

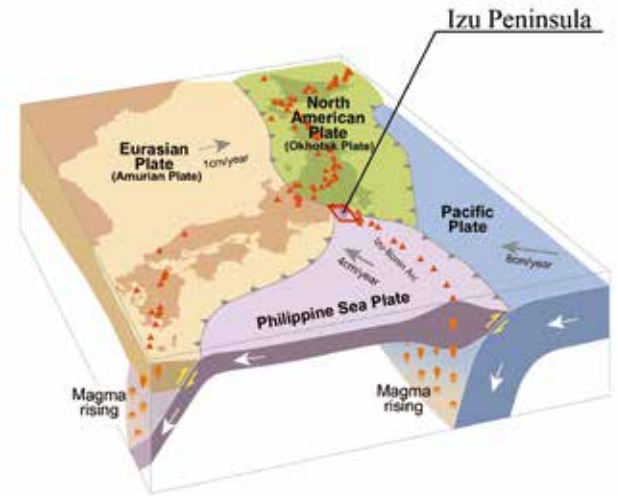

[Izu Peninsula Geopark] Mt.Fuji & Izu Area

Izu Peninsula Geopark is a big attraction of Shizuoka Prefecture, apart from Mt. Fuji. This world class tourist destination can be visited by ferry from Shizuoka City, or by train, bus or car from Tokyo, Yokohama and the eastern part of Shizuoka prefecture. How about making this peninsula that gives sense of the grand scale of geological time a destination for your trip?

What is fascinating about Izu Peninsula?

The geological history of the Izu Peninsula began approximately 20 million years ago. At that time, Izu was a collection of submarine volcanoes located hundreds of kilometers south of Japan's main islands. With the northward movement of the Philippine Sea Plate, Izu approached the main landmass of Japan and eventually collided with Honshu. In this way the present peninsula was formed. The peninsula formed about 600,000 years ago. In Izu, beautiful landscapes created by volcanic and plate tectonic activities and unique cultures add up to an unforgettable experience for you!

Experience the old submarine volcanoes

You can see remnants of old submarine volcanism in southern and western parts of Izu. The peninsula is just a ferry ride away if you are in Shizuoka for a meeting.

In Dogashima, you can walk upon ancient submarine volcanic products while listening to the explanations by geoguides.

If you have free time, try the Kayaking tour. Some geoguides will provide you an irreplaceable experience.

Study about volcanism

You will meet a lovely pudding shaped conical mountain at the eastern part of Izu Peninsula. This is Mt. Omuro (Omuroyama volcano), and it is about 75 minutes away from Plaza Verde by car.

This volcano erupted about 4000 years ago. A lift takes you to the top and you can walk around the crater in about 40 minutes.

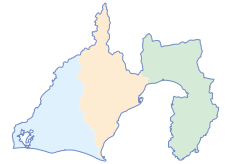

The Jogasaki coast is only 15 minutes drive away from Mt. Omuro. It is a coastline full of interesting walking trails.

[Inquiries about Izu Peninsula Geopark]

We are happy to answer your queries about geoguide services, courses described above, details about geosites and any thing else.
