

出版社・学協会のポリシー

著作権が出版社にある場合も許諾があればリポジトリに登録・公開ができます。
海外の出版社の多くはセルフ・アーカイブ（研究者による自己保管）を認め、学術雑誌掲載論文のリポジトリでの公開を許諾しています。（例：Elsevier, Wiley, Springer, Nature など。）

また、許諾の条件を Published Version(出版社版)を認める、 Accepted Version（著者最終稿）を認める、など区別をしています。

出版者や雑誌のウェブサイトには著作権に関するポリシーが掲載されていますので、あらかじめご確認ください。Copyright, Permissions, For Authors, Rights などに関連するページに掲載されています。

国内でも学会を中心に許諾条件をデータベース化する事業が進んでいます。

著作権ポリシーの確認は以下のウェブサイトも参考になります。

* なお、本学学術リポジトリの登録申請時には、出版社の Web サイトでインターネット公表に関する記載を確認して該当部分をプリントアウトし、根拠書類として提出してください。サイトに記載がない場合は出版社や共著者に問い合わせ、そのメール文のコピーを根拠書類として提出してください。

Research Article Public Access, Depositing in Repositories, and Discoverability

The journal makes all JAMA research articles free public access 6 months after publication on the journal website.

Authors of research articles may deposit the accepted version (ie, the peer-reviewed manuscript that you submitted on which this decision is based) of the manuscript in a repository of your choice on or after the date of publication provided that it links to the final published version on the journal website. You may not deposit the published article (version of record), which is the final copyedited, formatted, and proofed version published by the journal. The journal will deposit a copy of the published research article into PubMed Central (PMC) at the time of publication, where it will be publicly available 6 months after publication. A few weeks after publication, you may obtain your PMCID on the PMC site at: <https://www.ncbi.nlm.nih.gov/pmc/pmctopmid/>. These options apply only to research articles. Non-research articles may not be deposited into repositories.

In addition, the journal will add metadata to all articles to ensure web-based search engine discoverability and will provide publicly discoverable information about your article to PubMed/Medline and numerous other bibliographic databases on the day of publication.
